Category definitions for our show:

- **RESTO ROD**
 - 1939 and older with stock body, modern drive train and interior.
- **STREET ROD**
 - 1939 and older with body and drive train modifications.
- **STOCK:**
 - All equipment except battery, exhaust and tires must be period correct for the age of the vehicle.
 - Continental kits and fender skirts would be considered period correct for certain vehicles.
- **MODIFIED:**
 - Any changes to the vehicle other than battery, exhaust and tires.
 - This includes wheels, modernized brakes, and/or modified engine.

Clarification of Resto Rod vs Street Rod

- **Street Rod:** allows unlimited body modifications. Bodies can be lowered, rooflines dropped, suicide doors put on, hood and trunk louvers, etc.
- **Resto Rod:** maintains stock body appearance, but anything goes under the skin. Not unusual to see a 1930's body fitted to a C5 Corvette frame and drive train, with a custom built interior. That's OK, as long as the body wasn't modified.
